The Botanical Review

CONTENTS VOLUME XVIII, 1952

Regeneration and Vegetative Propagation. II. CHARLES F. SWINGLE 1

The Chloroplast: Structure, Inheritance, and Enzymology. II. T. E. WEIER AND C. R. STOCKING 14

Theories of the Biogenesis of Flavonoid Compounds. T. A. GEISSMAN AND ELLY HINREINER 77

The Chemical Mechanism of Photosynthesis. C. P. WHITTINGHAM 245

Fungal Carotenoids ..... T. W. GOODWIN 291

The Characeae, 1951 ..... R. D. WOOD 317

Histochemical Localization of Enzymes in Vascular Plants. D. S. VAN FLEET 354

Chromosome Morphology in Maize and Its Relatives. ALBERT E. LONGLEY 399

Southern Swamps and Marshes .... WILLIAM T. PENFOUND 413

Chemical Regulation of Sexual Processes in the Thallophytes. JOHN R. RAPER 447

Plant Disease Forecasting. PAUL R. MILLER AND MURIEL O'BRIEN 547

Placentation in Angiosperms ..... V. PURI 603

Wound Healing in Higher Plants. II. ..... ROBERT BLOCH 655

Injuries to Plants Caused by Insect Toxins. II. WALTER CARTER 680
